

# Weather and its Hazards

First Class requirements 5b, 5c, 5d

# Weather Forecast

**There are many ways to get a weather forecast. Here are 2**

- ★ **Reading weather updates on Websites, Mobile Apps, and Television**
- ★ **Listening to the National Weather Radio (NOAA)**

# Weather Forecasts Pt. 2

Knowing the forecast before you go on a trip or outing is very important.

You need to be prepared and knowing the weather before hand is being prepared.

Theres been a few campouts that i've gone on and didn't see what the weather was so the weekend was wet and miserable

# National Weather Website

Here is a website about National weather

<https://weather.com/forecast/news/national-forecast-20141009>

# Identifying signs of Hazardous Weather

Theres a old saying, "Swallows flying near the ground, means a storm will come around"

<https://youtu.be/VcsTfkFN8sU>

Another old saying, " "Red sky at morning, sailor take warning."

# Types of Hazardous Weather

# Hazardous Weather in New England

The main types of Hazardous Weather New England faces are

- Hurricanes
- Blizzards
- Thunder Storms
  - Floods
- Extreme Wind Storms

# What to do to prepare for these weather conditions

- Discuss with your family ahead of time to have a plan in place
- Prepare a backpack or box full of the things yo might need ex: Flashlights, Batteries, Candles, Extra food, Blankets, Water bottles, maybe an activity book

That's it 😊
